

Thermostatic valves

Operating temperature range	20-45°C - 35-60 °C	Flow	KVS 1,6 and KVS 2,5
Maximum working temperature	95 - 110 °C	Fluid	Sanitary water, water / glycol solution
Accuracy of mixing at the output	±2 °C	Connection	External or internal thread
Reference to hot and cold pressure	3 bar	Valve body	CW617N
Maximum static pressure	10 bar	Handle	Nylon
Maximum working pressure	5 bar	Gasket	EPDM
The maximum difference between the inlet pressure	3 bar
