Conformity certificate 01/WAR/2022

March, 17th 2022

1 - Related products :

- **Manual balancing valves**
  - 750
  - 750 R
  - 751
  - 751 R
  - 753
  - 1753
  - 1752

2 - Main characteristics :

- Fields of applications : Heating/cooling and tap water balancing
- Technical datas :
  - Maximum temperature : 110 °C
  - Minimum temperature : - 25 °C
  - Nominal pressure : PN 16
  - Raw material : Bronze UE5 (body)

3 - Related factory :

COMAP Industries, site d'Abbeville.

Route de Doullens

F 80100 ABBEVILLE

4 - Declaration

Concerning the products described herebefore, COMAP declare that they are made in the related factory under the quality management system conform with the requirements of standard ISO 9001, and COMAP internal quality control system.

This includes the raw materials, the manufacturing and the overall quality & control system.

PED 2014/68/EU : The related products follow the Directive herebefore (PN 16) and are covered by the art4 §3 which indicates that they are not concerned by CE Marking.

PN16 rate	750/750 R – 751/751 R- 753 - 1753 - 1752
